

The unstoppable nature of crypto assets

Blockchain in action

Unstoppable applications

No one
can stop

- a Bitcoin transaction
- execution of code on the Ethereum Virtual Machine

Why?

- Impossible to limit the flow of resources

How?

- Decentralization

Unstoppable, really?

Why does an energy provider care about unstoppable applications?

A wide-angle photograph of a solar farm at sunset. The sun is a bright, glowing orb in the upper left corner, casting a warm, golden light across the sky and the rows of solar panels. The panels are arranged in long, parallel lines that recede into the distance, creating a strong sense of perspective. The ground between the rows is dark, and the overall atmosphere is serene and powerful.

**In less than 2 hours the earth receives
the amount of energy
we consume annually**

Fortum solar plant in India

Unstoppable use case - Peer2Peer energy sales?

Unless, storage revolution

Battery capacities

- Tesla Powerwall 13 kWh
- Tesla Model S 100 kWh
- Tesla Semi Truck

My apartment

- 2 days
- 2 weeks
- +3 months

Minimum Unstoppable Use Case

- Decentral e-mobility charging network

Motionwerk

OSLO2ROME

ONE SINGLE E-CHARGING NETWORK
ACROSS ALL OF EUROPE BASED ON
BLOCKCHAIN TECHNOLOGY.
