

Funding possibilities via EU & Tekes

Finnish Marine Industries supports companies to find funding

- **Tekes**

- Arctic Seas -program
- Tekes is now piloting new financing instrument for building up business ecosystems
 - That instrument might be interesting also in creation of “forerunning smart maritime cluster”

- **Horizon 2020, The EU Framework Programme for Research and Innovation**

- Transport: Waterborne

MG-2.1-2017: Innovations for energy efficiency and emission control in waterborne transport

- Advanced energy storage and DC energy systems on-board for full and partial vessel electrification, including hybridization
- Check also: Blue Growth, SME Instrument, Fast Track to Innovation

- **EIB (European Investment Bank)**

- For large projects, companies seeking growth
