Petri Niiranen – Nokia Smart Retail

14.11.2017

The way consumers do shopping challenges traditional retailers

A man with a beard, wearing a grey sweater and a thick grey scarf, is looking down at a smartphone in his hands. He is in a server room, with blue server racks and glowing lights in the background. A large white arrow points downwards on a blue panel in the background. A dark blue horizontal bar is overlaid on the image, containing white text.
